PHOTOGRAPHY LABORATORY

📌 PART I – PHOTOWALK

- Use **Manual/Pro Mode ONLY** (Auto Mode is not allowed).
- All photos must be taken during lab time.
- Minimum of **15 original photos**.
- Include different lighting conditions:
  - At least 5 Outdoor
  - At least 5 Indoor
  - At least 3 Low-light situations

📝 FOR EACH PHOTO, INCLUDE:

- Title
- ISO
- Shutter Speed
- Aperture (or indicate "Fixed")
- Type of Photography
- Point of View
- Composition Technique
- Exposure Result (Under / Proper / Over)
- 1–2 sentence **technical justification**

Your justification must explain:

- Why you chose the exposure settings
- What lighting condition influenced your decision

📌 Include a screenshot of your camera settings as proof of Manual Mode.

🔍 PART II – EXPOSURE COMPARISON ANALYSIS

Select:

- **1 Best Exposed Photo**
- **1 Most Challenging Photo**

Write a short technical explanation (½ page maximum):

1. Describe the lighting situation.
2. Which exposure variable did you prioritize first?
3. What trade-off occurred? (noise, motion blur, depth of field, etc.)
4. If retaking the photo, what exact adjustment would you make?

Be clear and technical.

🎨 PART III – LIGHTROOM APPLICATION

Select your **best 2–3 photos**.

Using Adobe Lightroom, adjust only:

- Exposure
- Highlights or Shadows
- Temperature (White Balance)
- Crop (if necessary)

Include:

- Before screenshot
- After screenshot
- Histogram screenshot
- List of adjustments made

⚠ Presets and heavy filters are not allowed.

Editing should enhance the image, not drastically change it.

SUBMISSION FORMAT

Submit **ONE PDF FILE ONLY**.
File Name Format:
Lastname_Firstname_PhotoLab.pdf

Order of Contents:

1. Cover Page (Name, Course, Date)
2. 15 Photos with complete documentation
3. Exposure Comparison Analysis
4. Lightroom Before & After comparisons
5. Screenshots of manual settings
