RECOGNITION AND AWARDS FOR STUDENT ORGANIZATION

TYPES OF AWARDS

1. **Major Awards**
2. **SDGs Awards**
3. **Special Awards**

MAJOR AWARDS

Presented to the student organization that has demonstrated exceptional performance, leadership, innovation, and significant contributions to the university and the community throughout the academic year. The organizations will be evaluated using the following criteria***: tangible projects (30%), initiated activities (40%) and participation (10%), and awards received (external)(20%).***

For initiated activities and participation :

Initiated activities shall be evaluated based on the highest level at which they are implemented, reflecting the scope, reach, and impact of the activity. The levels of implementation are as follows:

- Department Level – Activities implemented and joined within a specific department or academic unit.
- College Level – Activities involving participants from one college or faculty.
- University Level – Activities conducted and participated across the university and involving multiple colleges, departments, or the entire university community.
- Local- Activities conducted and participated in at the city/municipality or provincial level
- Regional Level – Activities involving participants or partner institutions from multiple provinces or within a defined geographic region.
- National Level – Activities conducted with participants or partner institutions from across the country.
- International Level – Activities involving participants, collaborators, or partner institutions from two or more countries.

Activities implemented at higher levels shall receive greater weight in the evaluation, recognizing their broader reach, collaboration, and institutional impact.

Initiated activities shall also be evaluated based on their type, recognizing the nature, objectives, and contribution of the activity to student development and community engagement. The activity categories include:

- Outreach Activities – Programs and initiatives that promote community engagement, extension services, volunteerism, and social responsibility through partnerships with external stakeholders and beneficiary communities.
- Co-Curricular Activities – Activities that complement and reinforce the academic curriculum by enhancing students' knowledge, skills, and competencies directly related to their academic programs.
- Extra-Curricular Activities – Activities conducted outside the formal academic curriculum that promote leadership, personal growth, cultural appreciation, sportsmanship, creativity, and other aspects of holistic student development.

Activities shall be evaluated based on the extent of their positive impact on stakeholders. Initiatives that demonstrate substantial, measurable, and sustainable benefits to students, the University, partner communities, and other stakeholders shall receive higher evaluation ratings in recognition of their broader reach, collaborative efforts, and lasting institutional and community impact.

For awards and Recognition:
The level of awards and recognition shall be evaluated based on the highest level of distinction received by the student organization during the evaluation period. Awards shall be classified according to the scope of the competition or recognition as follows:

- Local – Awards received at the institutional, municipal, city, or provincial level.
- Regional – Awards received in competitions or recognition programs involving participants from multiple provinces or regions.
- National – Awards received in competitions or recognition programs conducted at the national level.
- International – Awards received in competitions or recognition programs involving participants from two or more countries.

Higher-level awards shall be given greater weight in the evaluation, recognizing the broader scope, competitiveness, and impact of the achievement.

For Tangible project:
The tangible projects will be evaluated according to their impact.
- Low Impact- Activities with limited reach or short-term benefits, primarily affecting a specific group of participants.
- Moderate Impact – Activities that provide significant benefits to multiple groups within the department, college, or university and demonstrate measurable outcomes.
- High Impact – Activities that generate substantial and sustainable benefits extending beyond the University, contributing to communities, partner institutions, or society at the regional, national, or international level.

Tangible projects of student organizations shall be evaluated based on their cost-benefit analysis, taking into consideration the efficiency and effectiveness of the resources invested relative to the benefits generated. The evaluation shall assess whether the project's financial, material, and human resource inputs are justified by its outcomes, long-term value, and sustainability. Projects that demonstrate prudent use of resources, provide significant and lasting benefits, and deliver value that exceeds or justifies their cost shall receive higher evaluation ratings.

The major awards are as follows
1. **TOP 3 Outstanding Student Council.** The Outstanding Student Council Award is presented to the college or university student council that has demonstrated exceptional leadership, effective governance, and outstanding service to the student body during the academic year. This award recognizes a student council that has consistently upheld the principles of transparency, accountability, inclusivity, and participatory leadership while successfully implementing programs and initiatives that promote student welfare, leadership development, academic excellence, community engagement, and sustainable development.
2. **TOP 3 Outstanding Academic Organization .** The Outstanding Academic Organization Award is presented to a duly recognized academic student organization that has demonstrated exceptional performance in advancing academic excellence, professional development, research, innovation, leadership, and community engagement during the academic year. The award recognizes an organization that has significantly contributed to the intellectual, personal, and professional growth of its members through high-quality academic programs, discipline-based activities, and meaningful partnerships that support the university's mission, vision, and the United Nations Sustainable Development Goals (SDGs).
3. **TOP 3 Outstanding Interest Clubs .** The Outstanding Interest Club Award is presented to a duly recognized interest club that has demonstrated exceptional commitment to promoting the talents, passions, and personal development of its members through innovative, inclusive, and impactful programs and activities. This award recognizes a club that has made significant contributions to campus life by fostering creativity, leadership, volunteerism, cultural

appreciation, advocacy, wellness, or other special interests while supporting the university's mission, vision, and the United Nations Sustainable Development Goals (SDGs).

STUDENT ORGANIZATION AWARDS BASED ON THE 17 SUSTAINABLE DEVELOPMENT GOALS (SDGs)

These awards recognize student organizations whose programs, projects, and initiatives significantly contribute to achieving the **United Nations Sustainable Development Goals (SDGs)** through leadership, service, innovation, and community engagement. The 17 SDGs provide a global framework for sustainable development that universities can integrate into student organization recognition programs.
